*The scholars laid out five major areas that have within them the different articulation points, which are a total of 17.
The five major areas are:*

The empty space between the mouth and the throat has in it one articulation point for the three lengthened letters.

الجوف

The throat: It has three articulation points for six letters which are pronounced from the deepest, middle, and closest part of the throat.

الحلق

The tongue: it has ten articulation points for eighteen letters.

اللسان

The two lips: they have two articulation points for four letters.

الشفان

The nasal passage: From the hole of the nose towards the inside of the mouth, here there is one articulation point, that of the Ghunnah.
